NSP Program Measures

Description of Home Foreclosures Concentration Measures

"...areas of greatest need, including those with the greatest percentage of home foreclosures,"
Low Score = High Need

Data Sets

- 1 - Foreclosure deeds by NH municipality and unincorporated place, summed for 2006, 2007 and 2008 Jan-Aug. Source - Real Data Inc., compiled by NHHFA.
- 2 - Households by NH municipality for 2006 (source NH OEP)

Measure 1

Measure - foreclosure deeds in the municipality as a percent of total foreclosure deeds for the period
Sort - highest percent to lowest percent

Range-Highest- 494 foreclosure deeds in Manchester-9%; Lowest-12 towns with 1 fore. deed (0.018%) and 41 towns with 0; Median-8 towns with 10 foreclosure deeds (0.18%),
Score - 1 to 18 for highest to lowest concentration, score assigned by natural break, in groups of 2(min) to 12(max)
Exclusions - municipalities and unincorporated places with fewer than 10 foreclosure deeds
Remaining records - 130 municipalities

Measure 2

Measure - Foreclosure deeds in municipality as a percent of households in municipality
Sort - highest percent to lowest percent

Range - highest - 3.3% in Washington; lowest - Lebanon - 0.25%; median - Goffstown - 1.24%
Score - 1 to 16 for highest to lowest concentration, score assigned by natural break, in groups of 2(min) to 12(max)
Exclusions - none

Measure 3

Measure - Difference between

Foreclosure deeds in municipality as a percent of total foreclosure deeds statewide and
Households in municipality as a percent of total households statewide,
the difference than multiplied by 100

Sort - highest to lowest
Range - Highest - 1.71 in Derry; lowest - negative 1.42 in Concord; median - 0.55 in Londonderry
Score - 1 to 19 for highest to lowest concentration, score assigned by natural break, in groups of 3(min) to 16(max)
Exclusions - none

Total Score - Foreclosure Concentration

In the final scoring Measure 1 is double weighted.

Measure - Sum of measure 1 score times 2, plus measure 2 score, plus measure 3 score (130 municipalities scored)
Sort - Lowest to highest

Exclusions - municipalities and unincorporated places with fewer than 10 foreclosure deeds
Range - Lowest - 10 in Berlin and Derry; Highest - 68 in Rye; Median - 41 in Dover

NSP Program Measures

Description of Measure for Concentration of Homes Financed by Subprime Mortgages

"... areas of greatest need, including those ... with the highest percentage of homes financed by a subprime mortgage related loan,"

Low Score = High Need

Data Sets

1 - HMDA Data for 2004 thru 2006, by Census Tract

Originated First Lien Mortgage Loans on One to Four Family Homes

Subprime Concentration Measure

Measure - Subprime loans as a percent of all originated mortgage loans

Sort - highest percent to lowest percent

Range - Highest - 47.5% in Census Tract 95080 (Berlin); Lowest - 1.5% in Census Tract 961602 (Hanover);

Median - 16% in Census Tract 032400 (Concord) and Tract 001000 (Manchester)

Score - 1 to 10 (x10) for highest to lowest concentration, score assigned by logical break, in groups of 16(min) to 42(max)

Redistribution

Census Tract scoring is redistributed to Municipal level in 2 step process.

Step 1 - For municipalities with multiple census tracts, score for lowest scoring census tract is assigned to the municipality

Step 2 - For census tracts with multiple municipalities, score for census tract is assigned to each municipality

Final Score -

Subprime Risk Score - 10 to 100 by 10's

NSP Program Measures

Description of Measure for Areas At Risk of a Rise in the Rate of Home Foreclosures
"...areas of greatest need, including those ...and identified by the grantee as likely to face a significant rise in the rate of home foreclosures,"

Low Score = High Need

Data Sets

1 - HUD provided data, file 'NH 120 LM' (Data by NH census block group)

Measure 1

Measure - Decline in OFHEO Home price index since peak

Sort - highest percent of decline to lowest percent

Range - Highest - negative 3.4% (365 block groups) to Lowest 0% (650 block groups)

Score - 1 to 5 for highest to lowest decline, score assigned by natural break

Measure 2

Measure - Bureau of Labor Statistics Unemployment Rate for June 2008, by place or county.

Sort - highest percent of unemployment to lowest percent

Range - Highest - 5.6% (16 block groups in Berlin) to Lowest 2.4% (4 block groups in Enfield)

Score - 1 to 6 for highest to lowest rate of unemployment, score assigned by logical break in groups of 22 block groups (min) to 750 block groups(max)

Total Score

Measure - Sum of measure 1 score, plus measure 2 score. 1,403 census block groups scored

Sort - Lowest to highest

Range - Lowest - 3 in 79 block groups; Highest - 10 in 2 block groups; Median - 6 in 584 block groups

Redistribution

Census Block Group scoring is redistributed to Municipal level in 1 step process.

Score for lowest scoring census block group in a municipality is assigned to the municipality

Final Score

Combined Score for At Risk of Home Foreclosure Increase

Range - low of 3 in 43 municipalities to high of 7 in 77 municipalities
